Week 2: CommunityLife Thoughts/ Brainstorm

- Location based Activities
- Events filtered by criteria (eg: Location/ Cost/ Travel Time/ Experience Level/ Age)
- External Event Site Integration -> Eventbrite/Ticketmaster/ Facebook
- Can we import review data i.e. from Yelp or other services?
- Iconography needs updating
- Mobile Version of Site is **NON FUNCTIONAL!**
- Cookies & Analytics - how can these be harnessed to better serve clients / consider GDPR
- Do we need to moderate events? -> event verification
- Other services to integrate with events i.e. music event -> soundcloud/ spotify integration?
- County Council Integration? source of local accessible events
- How do we keep constant flow of user traffic i.e. to create events, to attend events
- Do we need a social aspect? - FB integration?
- Technologies to be used?
- Platforms to be considered?
- Is event accessible? Can we issued event accessibility ratings? (wheelchair, toilet facilities, parking)?
- GDPR Compliance
- Specified Requirements as per document
